Dialogue System
for unity

Thank you for using the Dialogue System for Unity! You now have a robust and proven system that will let you easily add AAA-quality conversations to your projects.

We want your project to be a success! If you have any questions or feature requests, please contact us any time at support@pixelcrushers.com.

Getting Started:

- Read the [documentation](#) and/or watch the [tutorial videos](#).
- Play the scene `Demo/Scenes/DemoScene1`.
If your project uses the built-in rendering pipeline or HDRP, first import the corresponding package from the `URP_HDRP_Materials` subfolder.

Documentation:

- Video tutorials & online manual: Tools → Pixel Crushers → Dialogue System → Help.
- Online documentation: https://www.pixelcrushers.com/dialogue_system/manual2x/html
- Download a copy: http://pixelcrushers.com/dialogue_system/manual2x/Documentation.zip

Upgrade Notes:

- Release Notes: https://pixelcrushers.com/dialogue_system/manual2x/html/release_notes.html
- Re-import any Third Party Support packages that you imported in a previous release.

Need Help?

- **FAQ:** Tools → Pixel Crushers → Dialogue System → Help → FAQ.
- **Forum:** <https://forum.pixelcrushers.com>
Tip: Search “howto” (one word) plus a question for helpful forum articles.
- **Email:** support@pixelcrushers.com
- **Web:** Tools → Pixel Crushers → Dialogue System → Help → Report a Bug.
